

Creasorb™ Foam Meets SFI Specifications

Bald Spot Sports Becomes A Participating Manufacturer In The SFI Spec 45.2 Program

Indianapolis, IN - July, 2007 - Bald Spot Sports (BSS) unique Creasorb™ multi-impact foam products passed the SFI Foundation, Inc. (SFI) Spec 45.2 testing procedures and minimum standards used to determine the minimum performance capabilities for impact padding.

The SFI Technical Committee initiates the specification process, typically at the request of the affected industry or race sanctioning body. Compliance with SFI specifications is voluntary and the determination includes examination of the materials energy absorbing capabilities, Gadd Severity Index test scores and After-flame Time test results.

Per the Quality Assurance Specifications™ of the SFI Specification 45.2, Creasorb™ multi-impact foam has differentiated itself from other beaded foam products in that no melting or dripping of the padding occurred during the after-flame time of 10.0 seconds or less.

As a participating manufacturer in the SFI Spec 45.2 Program, Bald Spot Sports can now certify that all Creasorb™ multi-impact foam products meet industry-wide accepted quality standards as determined by the SFI specification process. Products covered by this certification include headrests, all multi-impact race seats for a variety of open wheel racing series, NASCAR and NHRA, and certain helmet liners produced for Impact Racing.

SFI is a non-profit organization established to issue and administer standards for specialty/performance automotive and racing equipment. SFI was originally a foundation run by SEMA, the automotive aftermarket trade organization. The letters "SFI" stood for "SEMA Foundation, Inc." Although SFI is now completely independent from SEMA, the Foundation has retained the name SFI Foundation, Inc.

###

About Bald Spot Sports:

Bald Spot Sports (BSS), headquartered in Indianapolis, USA, is actively engaged in the production of technologically superior foam racing seats for professional race drivers and private enthusiasts.
